INJUNCTION PLANK WAS A GOLD BRICK

William Jennings Bryan Shows Fallacies of G. O. P. Labor Plank.

WHY PRACTICE VAIN DECEPTION

If Labor People Demanded Too Much Why Weren't Republicans Frank Enough to Answer?-Bryan Now Has 77.5 Per Cent. of the Delegates.

By Associated Press. Lincoln, Neb., June 22 .- Following

up his expression of yesterday in criticism of the Republican national platform in general, W. J. Bryan gave out tonight a statement in which he assails in particular the anti-injunction plank of the Chicago declaration, characterizing it as a "transparent fraud." The statement follows: "The anti-injunction plank of the

Republican platform as finally adopted is a transparent fraud. It is possible that the members of the committee were buncoed by some trust lawyer-that is the only charitable view that can be taken of it. Those who advocated the plank claimed to be doing it as a concession to the wage earners, and yet if one will read the plank he will see that it is in fact announcement that the Republican party is unalterably opposed to the laboring man's position. The plank reads as follows:

"The Republican party will uphold at all times the authority and integrity of the courts, state and federal, and will ever insist that their power to enforce their processes and to pro-We believe, reserved inviolate. owever, that the rules of procedure in Federal courts with respect to the issuance of injunctions should be more accurately defined by statute; that no injunction or temperary re-straining order should be issued without notice, except where irreparable injury would result from delay, in which case a speedy hearing there-after be granted.'

No Attack on Courts. "It will be seen that the plank begins with an unnecessary eulogy of the courts. Nebody is opposed to upholding at all times the authority and integrity of the courts. Nobody is objecting to the enforcement of their processes or of the exercise of their powers to protect life, liberty and property. The plank assumes that somebody is attacking the courts, and that the courts are in danger of losing support or of having their powers weakened. There is no attack upon the courts and there is no thought anywhere of interfering with any legitimate function of the courts. The Republican convention puts up a man of straw and then proceeds to demolish it. This part of the plank was written to give assurance to the people who are opposed to the laboring man's plea. And now let us proceed to that part of the plank which was

That no injunction or temporary restraining order should be iswithout notice 'except where irreparable injury would result from delay, in which case a speedy hearing thereafter should be granted. Note the words 'except where irreparable injury would result from delay' and compae this with the Federal statute on the subject, and you will find that under the law as it now exists the court is not empowered to grant a temporary restraining order except where there appears to be danger of irreparable injury

THE STATUTE COPIED. "It will be seen that the man who wrote the injunction plank copied the statute almost word for word and made the exception as broad as the statute. If the convention had been frank in the statement of its position, It would have quoted the present statute and said that it was in favor of enforcing the law just as it is. It would have read, whereas at present a court or judge may grant a temporarily restraining order. If there appears to be danger of irreparable injury from delay,' therefore, be it resolved that we are opposed to chang-

The men who are responsible for the language of the injunction plank may have fooled the convention, but they can not fool the laboring men or the voters in general. The injunction plank has not even the value of a gold-plate brick, for the plating is brass as well as the interior of the

Broward is Bent Upon Calling An Extra Session of the Legislature - He Now Has the Majority in Both Houses.

Jacksonville, Fla., June 22.—Will Governor Broward call an extra session of the legislature, and, if so,

This is the question that is greatly interesting the Democratic voters of the State, and since The Metropolis stated a few days ago that an extra session was probable the matter has been greatly discussed. This conservative element also says that there is no reason for Governor Broward to suppose that the present senators will agree to his franchise tax law, as they turned it down dur-

ing the last session. There is a general impression, however, that the governor is bent on an extra session, and if he calls it, every one will take especial interest in the reasons he makes when he issues his official announcement.

General Impression Is That Six Patients Are Discharged Six Men Were Held for Muras Cured-We Look Forward to Their Recovery as an Event That is Ordinary in Their Lives.

> By Associated Press. New Orleans, June 22.—A remarkable medical report touching on the curing of leprosy wil be presented to the Louisiana assemby probably this week by the leper home of the state of Louisiana. In this report are the words: "Dis-

charged cured, six." "Pactically well and kept under observation, five."

Briefly explained, the meaning of these figures is that out of sixty-one lepers at the Louisiana institution in the past two years, six have been practicaly cured.. The figures are from the biennial report of the leper home, where for over thirteen years this state has provided a place for eratic Executive Committee before lepers to receive the comforts and the skilled medical care which are sufferers from this malady.

Cheerful Quarters...

The inspection party was agreeably surprised to find that as compared with the average hospital, the home was a cheerful place to visit. Instead of being isolated, the institution faces the public highway along the Mississippi river levee in Iberville parish. It occupies the Indian camp plantation, an estate of about 400 acres, with moss-hung oaks, and retaining still much of its ante-bellum
